CONTACT

- +91 8826169020
- mssmart6@gmail.com
- ManjotSingh06

SKILLS

- Python
- langchain
- langgraph
- fastAPI
- numpy
- pandas
- flask
- HTML,CSS,JavaScript
- React.js
- Node.js
- mySQL
- mongoDB

CERTIFICATION

- Generative AI Skills for Data Analytics - IBM Mooc
- Fundamentals of Data Structure in C- Simplilearn
- Front-End Development HTML - Great learning academy
- Front-End Development CSS -Great Learning Academy

LANGUAGES

- English
- Hindi
- Punjabi

WORKSHOP

- Generative AI-EDUTECH LIFE at IIT,Delhi
- AI&ML with Data Science-EDUTECH LIFE at IIT,Delhi

OBJECTIVE

To work in an organization where I can utilize my skills in best way

PROJECTS

Movie recommendation system

- Data collection & preprocessing:** Collected movies data, including metadata(genre, ratings, cast, etc.
- Model Development:** Implemented various recommendation algorithms like collaborative filtering , content based filtering ,etc
- user interface:** Designed and integrated a user friendly front-end interface for user to input their preference and receive recommendation.

Techstack used:

- Python Scikit-learn, Pandas, NumPy
- web development: react and flask

Customer Support Agent

- Developed a LangGraph-based chatbot that serves as the initial customer support agent, orchestrating dialogue flows and user intents using a graph-structured state machine logic.

Techstack used:

- python-** Langgraph, Langchain, Groq-API

W-Safe(selected for the hackathon)

- Developed a full-stack “W-Safe” web application featuring core functionalities such as emergency notifications, geolocation, and helpline integration modules using JavaScript technologies.

Tech stack used:

- HTML,CSS
- JavaScript-** React.js, node.js, express.js, vite, mongodb
